

Superior Benefits

SHARKSKIN®

THE ULTIMATE 2-PLY ROOF UNDERLAYMENT SYSTEM

Ultra 2-PLY

Exceptional - High Tensile Strength

Sharkskin Ultra / Sharkskin Ultra SA®
Miami-Dade TAS 103 and TAS 104 Tested
High Velocity Hurricane Zone Rated

Green

NO VOC's, Recyclable, LEEDS

Nail Sealability

Per ASTM D1970

Patented Slip-Resistance

Even in wet or dusty conditions

Faster Installation

Sharkskin Ultra® 48"x250' 50lb 10-SQ rolls
Sharkskin Ultra SA® 48"x125' 70lb 5-SQ rolls

High-Temp Rated

280° F

Low Temp Adhesive Application

10° F & rising

Faster Roof Installation

No primer or mastic/bull required
Multi-Directional roll w/ no selvage-edge
Light weight rolls faster to install

Foam-Set Tile Installations

Polyset, DAP and DOW-1&2 Component
Dries quickly/keep foaming roof tile

Easy to Mark

Use Crayon, holds a chalk line

Cooler to Work With

Grey Surface stays cool & keeps building cooler during construction

Will Not Scar or Melt

NO Sticky Mess like with asphalt

Long term warranties available-
Please contact Kirsch Building Products

Description

Created specifically for all "High Velocity Wind Zone" pitched roof clay/concrete tile, metal, slate, asphalt and wood shingle installations. The Sharkskin 2-Ply System is the most important step toward a "Long Term Performance" roof system. A roof system is only as good as its weakest link. Don't let an inferior roof underlayments be that link. Protect your customers with the superior Sharkskin 2-Ply Roof Underlayment System

OVERVIEW

All construction professionals know the importance of a quality roof system. That is why so much research, time & effort goes into specifying and installing the right roofing product for every home or building.

The 2-Ply Sharkskin Ultra® / Sharkskin Ultra SA® is a patented fully engineered, Miami-Dade approved and industry leading roof underlayment system. This 2-ply system is a combination of a layer of Sharkskin Ultra® (polypropylene based composite, containing a high-tensile strength fabric) as the anchor sheet mechanically fastened to the roof deck, and a layer of Sharkskin Ultra SA® (same as Sharkskin Ultra w/ the addition of a synthetic-butyl layer) fully adhered to the Sharkskin Ultra®. This state of the art, fully tested 2-Ply system provides 12 month UV resistance while the primary roof system is being installed, as well as high wind resistance like no other two-ply roof system on the market. This Sharkskin 2-Ply system out performs old-tech nology, traditional asphalt based anchor sheet and SBS asphalt modified self-adhered systems.

Tested and approved with all the leading "polyurethane foam clay/concrete roof tile adhesive" manufactures for "high velocity hurricane zones". This Sharkskin 2-Ply System, like all premium Sharkskin Roof Underlayment is high-temp rated for metal roof systems, while providing a limited 50 year warranty.

These days you can't afford not to have the best 2-Ply system available to protect your customers home or building. Specify the Sharkskin 2-Ply System..
