

OVERVIEW

All construction professionals know the importance of a quality roof system. That is why so much research, time & effort goes into specifying and installing the right roofing product for every home and building.

Sharkskin Ultra® the original patented "synthetic roof underlayment, is designed to ensure that quality roof installations are not short-changed by inferior "old technology" asphalt felts, or cheap inferior commodity based synthetic roof underlayments. Sharkskin Ultra® is the heaviest, most robust, mechanically fastened polypropylene polymer based product on the market. Industry leading high-tensile strength provides, the highest tested wind resistant and 12-UV rating available.

High-temp rated for all metal roofing systems and extreme abrasion resistance for clay/concrete roof tile installations.

These days you can't afford to open yourself up to the potential liability of inferior roof underlayments. Give your customers the finest roofing system by starting with "The Ultimate Roof Underlayment".

Specify Sharkskin Ultra®

Code Compliance

**The original Sharkskin Ultra...
the most advanced synthetic
underlayment on the market**

Superior Benefits

SHARKSKIN™ The Ultimate Roof Underlayment *Ultra*

High Tensile Strength

Provides a secondary water barrier if the primary roof is blown off

High-Temp Rated

280° F. Perfect for all metal roof installations

Faster Installation

Light weight 48"x250' 50lb 10-SQ roll

Nail Sealability

Provides long term nail sealability per ICC-ES AC48

Slip-Resistant

Even in wet or dusty conditions

Easy to Mark

Use Crayon, holds a chalk line

Will Not Scar or Melt

NO Sticky Mess like with asphalt

12 Month UV Exposure

Provides long term protection during roof installations

Cooler to Work With

Grey Surface stays cool & keeps building cooler during construction

Installs with 3/8" Roofing Nails

Does not require plastic caps

Long term warranties available- Please contact Kirsch Building Products..

Description

Created specifically for all pitched roof metal, slate, and clay/concrete roof tile installations. SHARKSKIN ULTRA®'S patented design is the most important step towards an "Integrated Roof System" in the harsh and abrasive roof environment. A roof system is only as good as its weakest link, don't let an inferior roof underlayment be that link. Sharkskin Ultra® was engineered to enhance the life of the roof and match the performance of the primary roof covering. Sharkskin Ultra® has no equal in mechanically fastened roof underlayments
