Does not require plastic caps

### Nail Sealability

Provides long term nail sealability per ICC-ES AC 48

### Easy to Mark

Use Crayon & holds chalk line

Long term warranties available- Please contact Kirsch Building Products

## Description

Created specifically for all pitched roof installations. Sharkskin Ultra Radiant® is an engineered high performance roof underlayment, providing all the benefits of the "Original" Sharkskin Ultra® with the additional features and benefits of a "Thermal Radiant" barrier. The product can provide a 96% reflective, 4% emittance value to the roof system, depending on a number of factors. SHARKSKIN Ultra Radiant® is the most important step towards an "Energy Saving Roof System". Sharkskin Ultra Radiant® was engineered to enhance the life, and energy savings of the roof, and match the performance of the primary roof covering.

# OVERVIEW

All construction professionals know the importance of a quality "energy saving roof system". That is why so much research, time & effort goes into specifying and installing the right roofing product for every home and building.

Sharkskin Ultra Radiant® was engineered to provide a "Thermal Radiation" reflecting roof underlayment. Because it's less expensive to reduce energy consumption in lieu of generating more energy. So, every re-roof and new roof should be installed to reduce energy consumption.

Mechanically fastened Sharkskin Ultra Radiant® provides the same 12 month UV resistance and 50 year warranty as Sharkskin Ultra® and Sharkskin Ultra SA®. Give your customers the finest roofing system by starting with "The Ultimate Roof Underlayment". Specify Sharkskin Ultra Radiant
