

# OVERVIEW

All construction professionals know the importance of a quality roof system. That is why so much research, time & effort goes into specifying and installing the right roofing product for every home and building.

Sharkskin Ultra® the original patented "synthetic roof underlayment, is designed to ensure that quality roof installations are not short-changed by inferior "old technology" asphalt felts, or cheap inferior commodity based synthetic roof underlayments. Sharkskin Ultra® is the heaviest, most robust, mechanically fastened polypropylene polymer based product on the market. Industry leading high-tensile strength provides, the highest tested wind resistant and 12-UV rating available.

High-temp rated for all metal roofing systems and extreme abrasion resistance for clay/concrete roof tile installations.

These days you can't afford to open yourself up to the potential liability of inferior roof underlayments. Give your customers the finest roofing system by starting with "The Ultimate Roof Underlayment". Specify Sharkskin Ultra®

# NEW!

**Engineered to exceed industry standards for a long term Energy Saving Roof System!**

## Superior Benefits

### Exceptional - High Compressive Strength

Target Compression 13500 PSF  
Provides a rigid continuous foundation

### Superior Air Flow

.04 Air gap between roof and roof deck

### Above Sheathing Ventilation

Provides air-flow beneath the primary roof covering

### Reduce Heat Transfer

Under Metal and Asphalt Shingle Roof Systems

### Cold Roof System Installations

Provides an air gap

### Green

NO VOC's, Recyclable, LEEDS

### Faster Installation

48" x 50' 2-SQ rolls

### Easy Installation

Installs with 3/8" roofing nails or plastic caps

### High Temp Rated

250 degrees F softening point

Long term warranties available- Please contact Kirsch Building Products

# SHARKSKIN VENTILATED ROOF MAT

With

**SHARKSKIN**  
*Ultra SA*  
SELF-ADHERED  
ALL WEATHER BARRIER™

With

**SHARKSKIN**
